THE ORIGINAL HAND TOOL MANUFACTURER

Established in Huddersfield, West Yorkshire, in 1740, Richard Carter Ltd is owned and run by the 8th generation of the Carter family. Today, at Carters we focus on handcrafting the highest quality range of tools, for the professional user. Being a true manufacturer, we aim to provide tough, durable tools and replacement handles that can truly stand the test of time and work as hard as you do.

CARTERS SEAL OF APPROVAL

Introduced for 2018, we have developed the Carters Approved stamp, so you can be sure that whatever you buy from Carters is of the highest quality and comes with the following promise...

✓ RELIABILITY

Our products and customer service is something you can rely on to deliver exactly what you need, when you need it.

✓ DURABILITY

Our products are built to last and we test them all beyond the industry standard, so we can be sure each and every product will last as long as you need it to.

✓ TOUGH

Our raw materials are the best in the business, we make products that work for you and are as tough as you need them to be.

✓ SINCERE

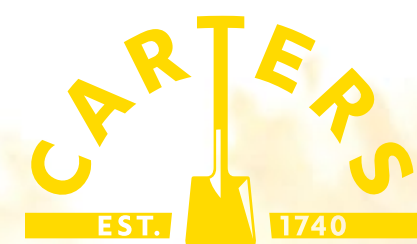

We believe you should treat people the way you'd like to be treated yourself and that's why we pride ourselves on always being honest and bringing products to the market that we genuinely believe are right for the job.

✓ UK MANUFACTURING

We've been based in Huddersfield, West Yorkshire since 1740 so it's clear we take pride in our Yorkshire roots but we are proud of the top quality products all UK manufacturers deliver.

✓ CONSISTENCY

With over 275 years of manufacturing under our belt, we know what makes the best tool and we continue to do what we do, making the best tools for any job you have.

OUR NEW RANGES

With over 275 years of experience, we know who buys our products and what they are used for. We know builders, farmers and park keepers, we know the products you use day in, day out and we know that quality is essential when you rely on the same tool to deliver results every day.

To make it easier for you - our customers - we have simplified our product range and created some new, distinct brands based on the various industries we consistently supply. We want you to easily identify the products you need and see what we have to offer instantly; time is precious, so the new ranges help you get the tools you need quickly.

⚡ SHOCKSAFE

Shocksafe is the UK's original premium insulated digging tool brand.

BE SHOCKSAFE

In it's 15th year, Shocksafe is the UK's original premium insulated digging tool brand. As the first to market with this type of tool, our patented moulding process ensures that Shocksafe digging tools are tougher, stronger and safer to use than ever before. In recent years many replica products have come to market but please be sure to check, if it doesn't say Shocksafe, is it really shock safe?

PRODUCTS IN USE

CLTRPFINS

Cable Layer (1-Way)

Handle: Shocksafe Polyfibre
Blade: 130 tapering to 115 x 280mm
Handle length: 711mm
Weight: 2.1kg

60CPFGINS

Chisel & Point Crow Bar

Handle: Shocksafe Fibreglass
Total height: 1500mm
Weight: 7.5kg

SHOCKSAFE

PIONEERS IN DEVELOPMENT

Innovating, manufacturing and developing insulated tools since 2002. Shocksafe insulated tools by Carters have been perfected through a continual improvement programme involving safety professionals, civil engineers, utility contractors and product design engineers.

Now in its 15th year, Shocksafe delivers the toughest, lightest and most load bearing shovel to date.

SAFETY THROUGH QUALITY

The Shocksafe insulated range is handmade at Carters modern 45,000 sq/ft manufacturing headquarters in Huddersfield, West Yorkshire. Each tool is manufactured to exacting specifications using stringent documentation processes: incorporating 5 separate and completely traceable preconditioning tests for the major components utilised.

Every single Shocksafe tool is then flash tested to 10,000 Volts before the issue of a number and certificate, completely unique to each implement: our guarantee of quality to the end user in a potentially dangerous live-working environment.

GUARANTEE

Our Shocksafe shovels are doubly protected by twin layers of polymer sheathing, moulded over the rigid fibreglass core. The orange insulation used for the outer sheathing has been developed for its high voltage and abrasion resistance properties. If the white inner sleeve becomes visible, the tool should be removed from use around live working conditions. A specially integrated hand stop prevents the user's hand slipping onto the steel blade.

Each tool comes with a 12 month major manufacturing defect guarantee from date of manufacture.

EVOLUTION OF THE RANGE
2002–PRESENT

2018 TESTING PROCEDURES

Relaunched for 2018, our improved Patented Specification has been innovatively re-engineered to ensure there are no weak parts or adhesives.

A truly revolutionary alteration that increases its strength and endurance for the toughest of environments.

NETWORK

Carters has been supplying trackside tools since the Industrial Revolution. Our Network range, with Shocksafe versions available for live track working conditions, are the ideal choice for this industry. As the rail network in the UK is under 'round the clock' maintenance, we have the forks, shovels and hand tools to make the job just that little bit easier.

MORE THAN JUST A PIECE OF WOOD

Sometimes tool handles need to be replaced. Being in constant use they can become uncomfortable to use.

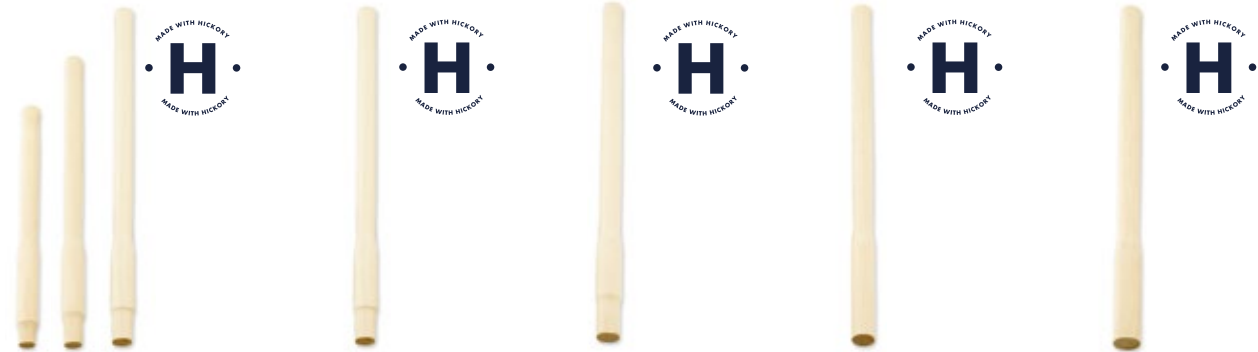

To us a handle is more than just a piece of wood. Each handle is carefully selected from straight grained Hardwood, graded by hand with an expert eye, ensuring only the best handles are fitted to all Carters Approved Tools.

1740

In the beginning...

Jeremiah Carter, a Blacksmith, founded the business in Highburton Huddersfield. He married a local girl and had 12 children, becoming an established 'Edge Tool Manufacturer'.

1850

The new company home

1939

World War II

1990

250 Year Anniversary

Joint Managing Directors Richard Carter III and Philip Everitt celebrate 250 years of the business.

**1740
2015**
CELEBRATING
275 YEARS
UK MANUFACTURING

2015

275TH ANNIVERSARY YEAR

2015 sees Richard Carter Ltd celebrate 275 years of manufacturing in the UK.

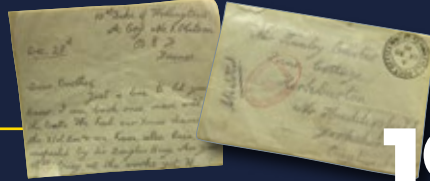

A 9000 Sq. ft. factory expansion began with other exciting plans put into place.

The Industrial Revolution

The Industrial Revolution completely changed the landscape of UK manufacturing. The company adapted to supply the rapidly expanding coal mining industries in Yorkshire and Nottinghamshire as Great Britain was now the 'workshop of the world'.

1800s

1914

World War I

Ernest Carter spent 347 days at war while keeping the family updated with regular letters. Ernest died at war in 1917. During the time of the First World War the business still continued to manufacture large quantities of shovels.

1957

Great Factory Fire

1999

New premises

During 1999 the company bought new premises in Honley, which they moved into in 2000. Richard Carter Ltd are still working at the Honley address to this date having expanded the site in 2015.

2018

Introduction of new ranges, designed with customers in mind as well as a brand new website.

Richard Carter Ltd.
